WO 2005/044297 A1

(54) Title: USE OF INTERFERON-TAU IN MEDECINE

(57) Abstract: A composition for use in preparation of a medicament for treating a condition responsive to interferon therapy in a human subject is described. The composition includes interferon-tau in dosage form suitable for oral administration to the intestinal tract in an amount effective to produce an increase in the subject's blood (2', 5')-oligoadenylate synthetase (OAS) level, relative to the OAS level in the subject in the absence of interferon-tau.
